**Why is Babar the Elephant banned?** The Babar books became the subject of controversy when Chilean writer Ariel Dorfman (in *The Empire's Old Clothes*, 1983) and others decried what they saw as French colonialism as the central allegory of the series. **What is the use of grammar in academic writing?** The correct use of grammar is essential in academic writing. It helps to ensure that ideas are communicated clearly and effectively, and that the paper is easy to read and understand. Poor grammar can make it difficult for the reader to follow your argument, and can lead to a loss of credibility.

**What is English for academic and professional purposes?** English for Academic & Professional Purposes is designed to meet the needs of multilingual English users in a wide variety of academic and professional fields. The series features books from leading voices in English for Academic, Professional, and Special Purposes and Applied Linguistics.

**What are the 10 rules of academic writing?**

**What is the grammar structure of academic writing?**

**What are examples of English for academic purposes?** Typically, EAP courses deal with (1) academic reading and the critical analysis of texts; (2) academic writing, both generally, e.g., the writing process, summarizing, paraphrasing, citing sources, and specifically, e.g., genre analysis or discipline-specific academic discourse such as the use of passive constructions ...

**What is the difference between academic English and professional English?** While academic writing is strictly formal, it's common to use the first-person point of view in many standard business communications. Lastly, academic writing requires adherence to strict formatting and source requirements, but there is generally more flexibility in this area when it comes to professional documents.

**Are there 10 main features of academic writing?** There are ten main features of academic writing that are often discussed. Academic writing is to some extent: complex, formal, objective, explicit, hedged, and responsible. It uses language precisely and accurately. It is also well organised and planned.

**What are the 5 C's of academic writing?** To introduce you to this world of academic writing, in this chapter I suggest that you should focus on five hierarchical characteristics of good writing, or the "5 Cs" of good academic writing, which include Clarity, Cogency, Conventionality, Completeness, and Concision.

**What are the 7 C's of academic writing?** The 7 Cs stand for: clear, concise, concrete, correct, coherent, complete, and courteous. Though there are a few variations.

**What is the golden rule of academic writing?** Rule 1: Answer the question that is asked. Rule 2: Write your answer in your own words. Rule 3: Think about the content of your essay, being sure to demonstrate good social scientific skills. Rule 4: Think about the structure of your essay, being sure to demonstrate good writing skills and observing any word limit.

**How can I improve my English grammar?**

**How to write advanced English sentences?** Use words that are specific rather than general. Use a variety of sentence structures, including simple sentences, compound sentences and complex sentences (with subordinators). Avoid using too many or too few subordinate clauses in one paragraph; this can make your writing sound choppy and repetitive.

**Why is proper grammar essential for academic writing?** Mastering grammar will allow you as a writer to make your work clearer and more readable; you will also have the freedom of making stylistic choices. People will judge you based on your writing, so make sure your writing reflects you the way you want it to. An investment in grammar is an investment in yourself.

**What is the importance of grammar in writing?** Grammar does play a vital role in creative writing. Proper grammar is necessary for credibility, readability, communication, and clarity. Mastering grammar will allow you as a writer to make your work clearer and more readable; you will also have the freedom of making stylistic choices.

**What is the main purpose of grammar?** Like any set of rules, grammar provides structure and standards, in this case, for writing. Grammar allows you to combine individual words to create different meanings and communicate effectively. Your writing is clearer and easier to understand when you apply the rules of grammar.

**Why is spelling and grammar important in academic writing?** Spelling, punctuation and grammar are important aspects of academic writing and any formal written communication. Checking these

elements of your writing carefully is part of cultivating the formal tone and reliable voice of a good piece of academic writing which your reader can place their trust in.

**Why is grammar and punctuation important in academic writing?** It serves as an established framework of rules that writers adhere to in order to communicate clearly with the reader. Whilst there are many situations where perfect grammar is not necessary, in academia it is paramount that you observe these rules closely and write with precision.
