**How is Berkshire Hathaway's performance compared to the S&P 500?** From 1965 to 2022, Berkshire Hathaway stock averaged a 20% compound annual growth rate, which compares to 9.9% annualized return for the S&P 500 in that period, according to U.S. News.

**Is there anything better than the S&P 500?** S&P 500 Index Versus Nasdaq 100 Performance Nasdaq 100 has outperformed S&P by a wide margin. The average 10-year return of Nasdaq 100 over these 15 years was around 9%, while that of S&P 500 was about 5%.

**Has Berkshire Hathaway outperformed the market?** Berkshire Hathaway has impressively outperformed the market over the long term. CEO Warren Buffett is very clear that, at least for now, the company is likely to perform more in line with the market.

**What companies consistently outperform the S&P 500?** Those companies are Microsoft, Apple, Nvidia, Amazon, Alphabet, Meta Platforms, Berkshire Hathaway, Tesla, Broadcom, and Eli Lilly.

**What is the 10 year return for Berkshire Hathaway?**

**Who is Berkshire Hathaway's biggest competitor?** Berkshire Hathaway competitors include BlackRock, Howard Hanna Real Estate Services, Allstate, The Carlyle Group and Allegheny Technologies.

**What fund consistently beat the S&P 500?** And there's one ETF that specializes in those stocks. That's the Invesco S&P 500 GARP ETF (NYSEMKT: SPGP), which has beaten the S&P 500 in seven of the last 10 years and has steadily outperformed it over the last decade, as you can see from the chart below.

**Which ETF outperforms the S&P 500?** While past performance is not a guarantee of future performance, there is a reason to believe that the Vanguard Growth ETF will continue to outperform the S&P 500 over the next decade.

**What investments have outperformed the S&P 500?**

**Is Berkshire Hathaway recession proof?** Berkshire Hathaway is a great place to start for investors seeking recession-proof companies in the stock market. It is a top 10 S&P 500 holding, with a 10-year total return that has beaten the index.

**Is Berkshire Hathaway a good long term hold?** Berkshire Hathaway stock has generally performed in-line with the S&P 500 index in recent years after a period of underperformance. But Berkshire stock has been outperforming in 2024, and is in a buy zone.

**How often does Berkshire Hathaway beat the market?** These Berkshire statistics are surprising. Over the past 20 years, around 95% of funds failed to beat their index. Buffett, meanwhile, has trounced the index. Since inception, shares of Berkshire Hathaway have averaged annual returns of around 20%, roughly double the rate of the S&P 500 over the same time period.

**Is anything better than the sp500?** Key Points. The S&P 500's track record is impressive, but the Vanguard Growth ETF has outperformed it. The Vanguard Growth ETF leans heavily toward tech businesses that exhibit faster revenue and earnings gains. No matter what investments you choose, it's always smart to keep a long-term mindset.

**Why is the S&P 500 not a good investment?** That said, investing in the S&P 500 doesn't come without risk. Because the S&P 500 is weighted heavily in favor of tech stocks, it tends to underperform when tech stocks underperform. You'll find that SPY and other broad-market ETFs often own a lot of Microsoft, Apple and other leading, large-cap stocks.

**What percentage of investors can beat the S&P 500?** According to Morningstar Direct, just 18.2% of actively managed funds whose primary prospectus benchmark is the S&P 500 managed to outperform the index in the first half of this year.

**What is the fair value of Berkshire Hathaway?** As of 2024-08-18, the Fair Value of Berkshire Hathaway Inc (BRK.B) is 788.28 USD. This value is based on the Peter Lynch's Fair Value formula. With the current market price of 444.51 USD, the upside of Berkshire Hathaway Inc is 77.3%.

**Why is Berkshire Hathaway worth so much?** There are lots of factors that can contribute to a high stock price. One of the biggest reasons why BRK. A is so expensive is because CEO Warren Buffett has decided against a stock split. A stock split is when a company splits its existing stock to create more shares, often resulting in a lower share price.

**What is the long term debt of Berkshire Hathaway?** Berkshire Hathaway Total Long Term Debt (Quarterly): 123.63B for June 30, 2024.

**Is Berkshire Hathaway better than S&P 500?** Key Points. Berkshire Hathaway has consistently outperformed the S&P 500 since 1965. The Vanguard S&P 500 ETF has generated bigger gains over the past two decades when factoring in reinvested dividends. Berkshire Hathaway faces more unpredictable headwinds than the latter.

**Does Berkshire outperform the market?** Berkshire Hathaway (BRK. A 0.94%) (BRK. B 0.97%) CEO Warren Buffett is widely considered a legend on Wall Street, and for good reason. The conglomerate's portfolio has substantially outperformed the benchmark S&P 500 since Buffett became CEO in 1965.

**Who is bigger, BlackRock or Berkshire Hathaway?** BlackRock, Inc. is the world's largest asset management, with about \$8.5 trillion under management as of Q2 2022. 2 Based on Berkshire Hathaway's similar portfolio management role, Berkshire Hathaway and BlackRock can be considered competitors.

**What is the S&P rating for Berkshire Hathaway?** Berkshire Hathaway Insurance Group 'AA+' Ratings | S&P Global Ratings.

**What is the performance of Berkshire Hathaway?** Berkshire Hathaway 1 Year Total Returns (Daily): 26.66% for Aug. 23, 2024.

**Is Berkshire Hathaway worth investing in?** Berkshire Hathaway stock trades at roughly 1.9 times its book value, on par with its average over the past 10 years. Berkshire Hathaway has grown larger over time, but it's hard to say the company's outlook has changed much. Berkshire Hathaway is about as solid as they come.

**What is the rank of Berkshire Hathaway?** Market cap: \$977.30 Billion As of August 2024  
Berkshire Hathaway has a market cap of \$977.30 Billion. This makes Berkshire Hathaway the world's 8th most valuable company by market cap according to our data.

**Should You Buy Berkshire Hathaway or This S&P 500 ETF?**, That said, Berkshire has outperformed the SP500 historically. I would keep the Berkshire and just invest new cash into an SP500 index fund, ... fool
